

# MarMonix 700 Series

## Advanced Industrial Videoscopes

**LED Lighting | Touch Control | Side View**

The **MarMonix 700 Series** industrial videoscopes are high-performance inspection tools designed for precise visual inspection in tight, hard-to-reach areas. Equipped with **high-intensity LED lighting** and a **5.1-inch HD touch display**, these videoscopes provide crystal-clear images and videos in **AVI/JPG format**, with the ability to **rotate, zoom, and capture** photos or videos.

The insertion tubes are **IP67 waterproof rated**, making them suitable for **harsh industrial environments**, including pipelines, drains, boreholes, and mechanical assemblies. Multiple **probe diameters and lengths** are available, and extra probes can be purchased for added flexibility.

Advanced features such as **side-view camera, multi-language interface, touch + button controls, WiFi connectivity, and adjustable brightness** make these videoscopes ideal for professional industrial inspection applications.

## Functions & Features

**Image rotation**

**3× digital zoom**

**Photo capture**

**Video recording**

**File preview**

**Multi-language operating system**

**Touch control + physical buttons**

**WiFi connectivity**

**Side-view camera option**

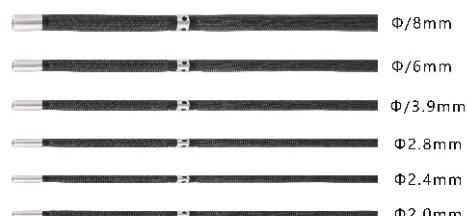

## Technical Specifications

Parameter	Specification
lux Illuminance	60,000
Light Source	LED
Brightness Control	10 levels
Brightness Adjustment	Self-adjusting automatic brightness
Viewing Angle	90° / 100°
Depth of Field	5 mm – 150 mm
Insertion Tube – Waterproof Rating	Ip67
Insertion Tube – Articulation	No for probes above 8 m length
Insertion Tube – Probe Options	Available probe diameters and lengths

### Optional / Extra Probes

- Customers can order additional probes separately
- Available diameters: 1.2 mm, 3.8 mm, 5.8 mm, 8 mm

### Video / Image Format

**Video: AVI      Image: JPG**

### Display

**Screen Size** · 5.1-inch HD LCD Touch Screen  
**Resolution** · 640 × 480 pixels

### Storage & Connectivity

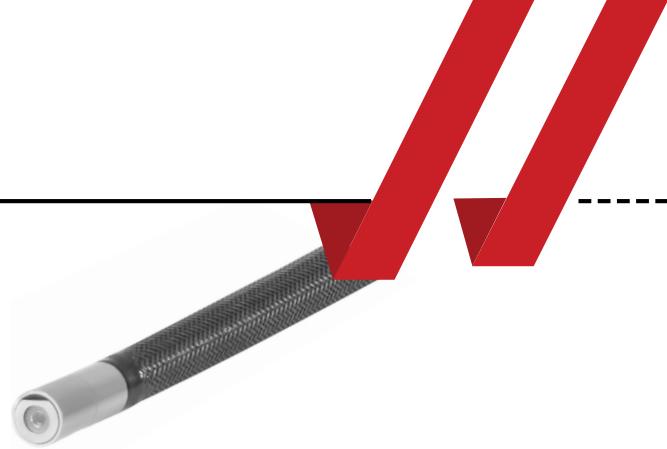

**USB Flash Support** · Standard: 32 GB  
· Maximum supported: 128 GB  
**Ports** · 1 × Type-C  
· 1 × USB  
· 1 × 3.5 mm earphone/MIC  
· HDMI output

### Physical Dimensions & Weight

**Unit Size** · 340 × 135 × 90 mm  
**Carton Size** · 479 × 387 × 155 mm  
**Weight** · Net Weight (N/W): 1.1 kg  
· Gross Weight (G/W): 5.2 kg

## MVS 700 Series – Model Selection Guide

Select the correct MarMonix MVS 700 Series Videoscope by defining four simple parameters:

**Example: MVS-738-3000-D**

**Series7 + Ø 3.8 mm probe + 3000mm length + Dual view camera**

### 1 Probe Diameter (Application)

Choose the probe diameter based on the inspection space:

**Ø 1.2 mm** – Micro inspections, precision components **Model 712**

**Ø 2.0 mm** – Small bore applications **Model 720**

**Ø 3.8 mm** – General industrial inspection **Model 738**

**Ø 5.8 mm** – Heavy-duty inspection **Model 758**

**Ø 8.0 mm** – Large industrial / pipeline inspection **Model 780**

### 2 Probe Length

Select probe length according to access depth:

Available lengths: 1 m, 1.5 m, 2 m, 3 m, 5 m

**Ø 8.0 mm probes available up to 15 m**

**Articulation:**

1 m – 5 m: **Articulated**

6 m – 15 m: **Non-articulated** (Ø 8.0 mm only)

### 3 Camera Viewing Direction

**F** – Forward View

**S** – Side View

**D** – Dual View (Forward + Side)

### 4 Ordering Code Structure

The ordering code is generated as:

MVS – [Model] – [Length] – [Camera Type]

**Example: MVS-738-3000-D Ø 3.8 mm + Probe 3000mm length + Dual view camera**

#### Ø 1.2 mm – Micro Probe | Articulated

Ordering Code	Probe Length	Camera Type
MVS-712-1000-F	1 m	Forward
MVS-712-1000-S	1 m	Side
MVS-712-1000-D	1 m	Dual
MVS-712-1500-F	1.5 m	Forward
MVS-712-1500-S	1.5 m	Side
MVS-712-1500-D	1.5 m	Dual
MVS-712-2000-F	2 m	Forward
MVS-712-2000-S	2 m	Side
MVS-712-2000-D	2 m	Dual

#### Simple Selection Example

##### Requirement:

Small bore inspection

2 m length

Side view camera

**Selected Model: MVS-720-2000-S**
