

# Marmonix MTS-B-A7

## Shore A Test Block Set

### Data Sheet

### Quick Spec Highlights

- **Hardness Scale:** Shore A (for soft rubber and elastomers).
- **Set Configuration:** 7-piece reference set.
- **Reference Values:** 20, 30, 40, 50, 60, 70, and 80 Shore A.
- **Accuracy:**  $\pm 1$  Shore A.
- **Material:** High-quality rubber compound.
- **Operating Temp:** 0°C to +40°C.
- **Compatibility:** Works with all Shore A durometers.

### Key Features

- **Precision Verification:** Designed for accurate checking and calibration of Shore A durometers.
- **7-Point Calibration:** Includes seven distinct blocks ranging from 20 to 80 Shore A for comprehensive testing.
- **Universal Use:** Fully compatible with all Shore A durometer models and brands.
- **QC Essential:** Perfect for lab inspections, production audits, and operator training.
- **Compact & Portable:** Standardized block sizes designed for easy storage and on-site field verification.

### Ordering Info

- **Part Number :** 7603811

### Disclaimer

The information contained in this datasheet is believed to be accurate and reliable at the time of publication. However, MarMonix reserves the right to make changes to specifications, features, or design without prior notice. Performance specifications apply under standard laboratory conditions and may vary in different environments. This product is intended for professional use only. MarMonix shall not be liable for any incidental, consequential, or special damages arising from the use of this product.

### Warranty

This device is covered by a 2-year warranty from the date of purchase, ensuring reliability and long-term support. The warranty applies to defects in materials and workmanship under normal use. It excludes consumables (fuses, disposable batteries) and damage caused by accident, misuse, modification, contamination, or operation outside specified conditions.

# Marmonix MTS-B-A7

## Specifications

### Technical Specifications

Feature	Specification
Model	MTS-B-A7
Hardness Scale	Shore A
Number of Blocks	7 pcs (1 complete set)
Hardness Values	20, 30, 40, 50, 60, 70, 80 Shore A
Material	High-quality rubber compound
Accuracy	±1 Shore A
Surface Finish	Smooth and uniform
Operating Temperature	0°C to +40°C
Storage Condition	Dry, room temperature
Compatibility	Suitable for all Shore A durometers
Dimensions	Standard test block size
